## Globe - Latitudes and Longitudes

Q1. What is a grid?

Ans. Grid is a network of parallels of latitudes and meridians of longitudes.

Q2. What are the three heat zones of the Earth?

Ans. The three heat zones of the Earth are Torrid Zone, Temperate Zones and Frigid Zones.

Q3. What is the true shape of the earth?

Ans. Earth is not a sphere. It is slightly flattened at the North and the South Poles and bulge in the middle.

Q4. What is prime meridian?

Ans. Meridian which passes through Greenwich, where the British Royal Observatory is located is called the Prime Meridian.

Q5. What do you mean by the term equator?

Ans. An imaginary line running on the globe divides it into two equal parts. This line is known as the equator.

Q6. What is a globe?

Ans. Globe is a true model (miniature form) of the earth. On the globe, countries, continents and oceans are shown in their correct size.
