Ans. _____

Q3. What do you mean by Thematic Maps?

Ans. _____

Q4. What are called conventional symbols?

Ans. _____

Q5. How are maps more helpful than a globe?

Ans. _____

Maps

Q1. Write the color used for the following: water bodies, mountain, plateau and for plains.

Ans. Blue is used for showing water bodies, brown for mountain, yellow for plateau and green is used for plains.

Q2. What is called the north line?

Ans. Most maps contain an arrow marked with the letter 'N' at the upper right hand corner. This arrow shows the north direction. It is called the north line.

Q3. What do you mean by Thematic Maps?

Ans. Some maps focus on specific information; such as road maps, rainfall maps, maps showing distribution of forests, industries etc. are known as thematic maps.

Q4. What are called conventional symbols?

Ans. Symbols give a lot of information in a limited space. There is an international agreement regarding the use of these symbols. These are called conventional symbols.

Q5. How are maps more helpful than a globe?

Ans. A globe can be useful when we want to study the earth as a whole but when we want to study only a part of the earth, as about our country, states, districts, towns and villages, it is of little help. In such a situation we use maps.
