## Our Country - India

Q1. Name the delta formed by the Ganga and the Brahmaputra.

Ans. The Ganga and the Brahmaputra form the world's largest delta, the Sundarbans delta.

Q2. What is delta?

Ans. The delta is triangular in shape. It is an area of land formed at the mouth of the river.

Q3. What do you understand by peninsula?

Ans. The peninsula is a piece of land that is surrounded by water on three sides.

Q4. Which rivers drain into the Bay of Bengal?

Ans. The rivers Mahanadi, Godavari, Krishna and Kaveri drain into the Bay of Bengal.

Q5. Write a short note on the Great Indian Desert?

Ans. In the western part of India lies the Great Indian Desert. It is a dry, hot and sandy stretch of land. It has very little vegetation.

Q6. What is a Tributary?

Ans. A river or stream which contributes its water to a main river by discharging it into main river from either side.
