Sorting Materials Into Groups

Q1. Why don't we use paper or cloth for making tumbler?

Ans. We cannot use paper or cloth for making tumbler because

- i. Paper or cloth is not hard enough to hold water.
- ii. Cloth has tiny pores through which liquid will ooze out.

Q2. Write the similarities between gold, silver and copper.

Ans. Similarities between gold, silver and copper are:

- i. They all are metals.
- ii. They all have lustre.
- iii. They are hard.

Q3. Name some materials made up of paper.

Ans. books, notebooks, newspapers, calendars etc.

Q4. Write the materials the following objects made of.

Ans.

<u>Object</u>	<u>Material they are made of</u>
pencil	plastic , metal
chair	wood, steel, iron
Bed	wood, steel, iron
knife	steel
