Inside Our Earth

Q1. What is a rock?

Ans. _____

Q2. Name three types of rocks.

Ans. _____

Q3. How much of the earth is crust, mantle and core?

Ans. _____

Q4. What makes up the crust of the earth?

Ans. _____

Q5. What are fossils?

Ans. _____

Q6. What are metamorphic rocks?

Ans. _____

Inside Our Earth

Q1. What is a rock?

Ans. Any natural mass of mineral matter that makes up the earth's crust is called a rock.

Q2. Name three types of rocks.

Ans. There are three major types of rocks: igneous rocks, sedimentary rocks and metamorphic rocks.

Q3. How much of the earth is crust, mantle and core?

Ans. The crust forms only 1 per cent of the volume of the earth, 84 per cent consists of the mantle and 15 per cent makes the core.

Q4. What makes up the crust of the earth?

Ans. The earth's crust is made up of various types of rocks such as igneous, metamorphic, and sedimentary rocks.

Q5. What are fossils?

Ans. The remains of the dead plants and animals trapped in the layers of rocks are called fossils.

Q6. What are metamorphic rocks?

Ans. When the igneous and sedimentary rocks are subjected to heat and pressure they change into metamorphic rocks.
