## Human Environment Interactions - The Tropical and the Subtropical Region

Q1. Name the countries of the basin through which the equator passes.

Ans. The countries of the basin through which the equator passes are Brazil, Ecuador and Columbia.

Q2. Where Ganga and Brahmaputra basin lies?

Ans. The basin lies in the sub-tropical region that is situated between 10°N to 30°N latitudes.

Q3. What is the Ganga Brahmaputra basin?

Ans. The tributaries of rivers Ganga and Brahmaputra together form the Ganga-Brahmaputra basin in the Indian subcontinent.

Q4. Why and how terraces are built?

Ans. Terraces are built on steep slopes to create flat surfaces on which crops are grown. The slope is removed so that water does not run off rapidly.

Q5. What are the other names of Brahmaputra?

Ans. Tibet - Yarlung Tsangpo, Arunachal Pradesh – Dihang, Assam – Brahmaputra, Bangladesh – Jamuna.

Q6. What is the population density of Uttarakhand, West Bengal and Bihar?

Ans. The population density of Uttarakhand is 189 while the density of West Bengal is 1029 and that of Bihar is 1102.
