Mineral and Power Resources	
Q1. Ans.	Where is the site of the world's first solar and wind powered bus shelter?
Q2. Ans.	Name some important hydel power stations in India.
Q3. Ans.	Which countries are the leading producers of hydel power in the world?
Q4. Ans.	Where are geothermal power plants located in India?
	Why is CNG considered as eco-friendly fuel?
Ans. Q6.	Why petroleum is referred to as "black gold"?
Ans.	
Q7. Ans.	Write a brief note on mineral salt.

## Mineral and Power Resources

- Q1. Where is the site of the world's first solar and wind powered bus shelter?
- Ans. The site of the world's first solar and wind powered bus shelter is in Scotland.
- Q2. Name some important hydel power stations in India.
- Ans. Some important hydel power stations in India are Bhakra Nangal, Gandhi Sagar, Nagarjunsagar and Damodar valley projects.
- Q3. Which countries are the leading producers of hydel power in the world?
- Ans. The leading producers of hydel power in the world are Paraguay, Norway, Brazil, and China.
- Q4. Where are geothermal power plants located in India?
- Ans. In India, geothermal plants are located in Manikaran in Himachal Pradesh and Puga Valley in Ladakh.
- Q5. Why is CNG considered as eco-friendly fuel?
- Ans. Compressed natural gas (CNG) is a popular ecofriendly automobile fuel because it causes less pollution than petroleum and diesel.
- Q6. Why petroleum is referred to as "black gold"?
- Ans. Petroleum is thick black liquid. Petroleum and its derivatives are called Black Gold as they are very valuable.
- Q7. Write a brief note on mineral salt.
- Ans. It is obtained from seas, lakes and rocks. India is one of the world's leading producers and exporters of salt.
