## Fractions

**Write the numerator and denominator for the fraction given below.**

a.  $\frac{2}{7}$       N = \_\_\_\_\_      D = \_\_\_\_\_

b.  $\frac{7}{10}$       N = \_\_\_\_\_      D = \_\_\_\_\_

c.  $\frac{5}{9}$       N = \_\_\_\_\_      D = \_\_\_\_\_

d.  $\frac{1}{6}$       N = \_\_\_\_\_      D = \_\_\_\_\_

e.  $\frac{3}{8}$       N = \_\_\_\_\_      D = \_\_\_\_\_

**Fill in the blanks.**

- A fraction is a small \_\_\_\_\_ of something.
- Number written above the line in a fraction is called \_\_\_\_\_.
- Number written below the line in a fraction is called \_\_\_\_\_.

**Write the fraction.**

- Dia ate 4 pieces out of 6 pieces of pizza. What fraction of pizza did she eat?  
\_\_\_\_\_

- Ravi had 100 rupees. He spent 20 rupees to buy an ice cream. What fraction of money he spend on ice cream?  
\_\_\_\_\_

- There are 8 apples. Out of which 3 are rotten. What fraction of apples is rotten?  
\_\_\_\_\_

**State True/False**

One- third can be written as  $\frac{1}{3}$ . \_\_\_\_\_

2 by 5 is same 2 upon 5. \_\_\_\_\_
