## Circle

### Q1. Fill in the blanks.

- \_\_\_\_\_ is the longest chord of the circle.
- A circle is a \_\_\_\_\_ curve.
- All radii of the circle are \_\_\_\_\_ from the edge of the circle
- The diameter is \_\_\_\_\_ the radius.
- The length of the boundary of a circle is called \_\_\_\_\_ of a circle.
- Line segment joining any two points on the edge of the circle is called \_\_\_\_\_.

### Q2. Look at the figure and answer the following questions.

- Center of the circle - \_\_\_\_\_
- Chord of the circle - \_\_\_\_\_  
\_\_\_\_\_
- Radii of the circle - \_\_\_\_\_  
\_\_\_\_\_
- Diameter of the circle - \_\_\_\_\_

### Q3. Find the diameter of the circle whose radius is 5cm.
