Diversity and Discrimination

Q1. Discuss the ways in which persons with special needs might be subject to discrimination.

Ans. Ways in which persons with special needs are discriminated are:

- i. They are discriminated at work, and when providing goods, facilities and services.
- ii. Children with disability are harassed by making jokes about their disability.
- iii. They are treated less favorably in many spheres of life because of their disability.

Q2. How does discrimination happen?

Ans. Discrimination happens when people act on their prejudices or stereotypes. If we do something to put other people down, if we stop them from taking part in certain activities and taking up jobs, or stop them from living in certain neighbourhoods, prevent them from taking water from the same well or hand pump, or not allow them to drink tea in the same cups or glasses as others, we are discriminating against them.
