## Urban Administration

Q1. Write a short note on contract workers who work for Municipal Corporation.

Ans. These contract workers get paid less and their jobs are temporary.

Collecting garbage is also quite a dangerous job and often these contract workers do not have any access to safety measures and are not taken care of if they are injured while working.

Q2. Write a short note on 'Sub-Contracting'.

Ans. In order to save money the Commissioners of several municipalities across the country had hired private contractors to collect and process garbage. This is called Sub-Contracting. This means that the work that was earlier being done by government workers is now being done by a private company.

Q3. Explain who is a 'Municipal Councillor'?

Ans. A Municipal Councillor is directly elected by the people and serves the people of his ward. He remains in touch with the key issues in his area, understand the crucial problems and monitor its development. He is the direct link between the council and the people. People can also bring their problems to him and he deals with the problem in a suitable way.
